

FAMU-FSU
College of Engineering

Coast2Coast Symposium

in collaboration with Sandia National Labs

Autonomous Innovation: Integrating AI into Self-Driving Laboratories,
Digital Assurance, and Next-Generation Materials and Systems

Register Today!

October 13, 2026, 9am – 2:30pm | October 14, 2026, 9am – 5:00pm
interdisciplinary Research and Commercialization Building (IRCB) Room 1040

- Explore how AI/ML powers autonomous experimentation and accelerates next-generation materials discovery
- Learn about digital assurance, cybersecurity, and advanced infrastructure for high-consequence systems
- Experience cutting-edge characterization tools including CT, electron/ion imaging, and spectroscopies
- Connect with Sandia researchers, FAMU-FSU faculty, and student innovators through technical sessions and the Student Poster Symposium
- See project work from former and current Sandia interns and student researchers showcased in the Student Poster Symposium
