

10th Annual Ethics in Engineering Case Competition

Solve a real-world engineering dilemma where integrity, innovation, ethics, and teamwork must all be balanced.

Dates:
February 22-24, 2027

Location:
Lockheed Martin Center for
Leadership Excellence in
Bethesda, MD

Competition Format:
Teams of two undergraduate students, with support from a faculty advisor, will present solutions to a fictional case study involving ethical, business, and engineering dilemmas. Each school can register two teams for the competition.

Why Participate?

Collaborate – Network with peers, industry leaders, and faculty from other institutions

Think Critically – Experience the pressure and excitement of presenting solutions and collaborating in a business meeting setting

Gain Knowledge – Hear from industry speakers from leading organizations, attend interactive workshops, tour cutting-edge facilities and sites

Opportunities – Meet with Lockheed Martin recruiters for potential internships and job opportunities

Why We Hold the Competition

Integrity is so vital to our business that we want students to be thinking seriously about ethics before they enter the workforce – especially in the increasingly complex landscape of technology and innovation.
