

EFFECTIVE MENTORING SEMINAR

WHY MENTORING MATTERS — AND HOW IT SHAPES THE
NEXT GENERATION OF SCIENTISTS AND ENGINEERS

WHO SHOULD ATTEND

Faculty, graduate students, and scientists interested in improving the mentoring experience — whether as mentors or mentees — in research, design, or teaching. **Everyone curious about improving the mentoring experience is welcome!**

WHAT TO EXPECT

A fast-paced, one-hour discussion on the power of effective mentoring to shape relationships, improve success in the classroom, lab and life. **Graduate students and faculty from any U.S. university may attend!**

We'll explore real examples from NSF research programs, and introduce practical mentoring principles used in the FSU Research Mentor Academy.

WHY IT MATTERS

Learn how small, intentional changes in your communication and expectations can strengthen your mentoring relationships and improve outcomes for your research team.

17 OCT 2025
