

**FAMU-FSU  
Engineering**

Department of Civil & Environmental Engineering  
2525 Pottsdamer Street, Tallahassee, FL 32310  
(850) 410-6161

## **Bachelor's – Master's Pathway Agreement**

Name of the Student: \_\_\_\_\_

Student 9 digit ID#: \_\_\_\_\_

The Bachelor's – Master's Pathway allows 6 graduate hours to be double-counted toward an undergraduate degree. The department will provide a fellowship to cover a portion of the tuition for 6 credit hours, so that the student pays only the undergraduate tuition for these 6 hours.

In exchange for this benefit, I agree to seek the graduate degree from FAMU-FSU Engineering<sup>1</sup>.

In addition, I acknowledge the policy that:

- I need to receive a course grade of B or better to double-count the graduate course. If the course grade is lower than B, then the graduate course will count only toward the undergraduate degree.
- If my cumulative GPA drops below 3.0, then I may be removed from the program and not permitted to take additional graduate coursework. In this case, no pathways courses will be counted toward the Master's degree.
- I need to carry a course load of no more than fifteen semester hours in any semester I take graduate courses.

Date: \_\_\_\_\_

Signature: \_\_\_\_\_

---

<sup>1</sup> The CEE department provides financial resources for the 6 credit hours, which are valid for double-counting in FAMU-FSU Engineering only. Therefore, if the student is likely to pursue the graduate degree elsewhere, the student should take graduate courses without pursuing the Pathway. Consult the graduate program director for details.
